

Low Volume Consumer or Designated Consumer Declaration Form for Multi-Unit Residential Premises

The Ontario government has set new commodity prices for electricity, which will come into effect on November 1, 2006. This change is an important step toward establishing a pricing structure in Ontario that more closely reflects the true cost of electricity and encourages customers to conserve.

WINTER THRESHOLD RATES, EFFECTIVE NOVEMBER 1, 2008

The first 1,000 kilowatt hours (kWh) consumed per month between November 1-April 30th by residential, low-volume and designated consumers will be priced at 5.6 cents per kWh for the electricity commodity. Consumption above 1,000 kWh per month will be priced at a higher rate of 6.5 cents per kWh.

SUMMER THRESHOLD RATES TO BECOME EFFECTIVE MAY 1, 2009

Effective May 1, 2009, the threshold at which the higher price will be applicable will be lowered to 600 kilowatt hours (kWh) per month consumed between May 1-October 31st by residential, low-volume and designated consumers. The applicable prices are yet to be determined.

Pursuant to the Regulation filed under s. 79.4 (1) (a) of the *Ontario Energy Board Act, 1998*, where the account of a low-volume consumer or designated consumer relates to:

- a property as defined in the *Condominium Act, 1998*,
- a residential complex as defined in the *Tenant Protection Act, 1997*, or
- a property that is owned or leased by a co-operative as defined in the *Co-operative Corporation Act*,

the conservation threshold for that consumer is determined based on the number of units within the property or complex. In order to determine the appropriate conservation threshold, consumers must provide a signed declaration attesting to the number of units to which an account relates.

If you qualify for a conservation threshold, which is more than 1,000 kWh per month in the Winter and 600 kWh per month in the Summer (e.g. because there is more than one unit associated with your account), you must complete this form and send it to our office by fax/mail as soon as possible. Your account will be adjusted upon receipt of this signed and completed Declaration Form. Please note, Forms received after June 1, 2004 will be eligible for a higher conservation threshold only on subsequent bills, and not retroactively. Any delay in processing as a result of missing or inaccurate information on the form will NOT result in adjustments to previous billings.

If you have multiple accounts eligible for a higher conservation threshold because there is more than one unit associated with your account, list each account separately. Do not include units that are metered or billed separately from the account referenced.

You must advise us in writing if your account ceases to qualify for a higher conservation threshold or if there is a change in the number of units within the property or complex.
