

# Enjoy the Benefits of Green Suites

## Learn with Green Suites

### Energy Efficiency Expo

You know your business; that's what has made you a success. You know your building, too. You know energy efficient upgrades are the right thing to do but you're not sure how to jump in.

The public demand for energy efficiency is driving innovation. Every day seems to bring new energy efficient claims and new technologies. Many manufacturers make claims about energy efficiency but how can the consumer know what's real and what is the best solution for his or her particular facility? Furthermore, will the new equipment deliver the performance your customers have come to expect from a stay at your facility?

EnWin is here to help. In September we will be holding a Green Suites Energy Efficiency Expo. This is your opportunity to come out and see what's new in technology, speak to the vendors and understand what is achievable through retrofits.

Event registration forms will be distributed at the end of August; feel free to bring all of your key staff to this unique event. Come out and see for yourself what's new in the marketplace.

### Building Audits

Green Suites is offering a limited number of electrical audits for Green Suites participants. If you are interested in an audit, visit the Green Suites page at [www.enwin.com](http://www.enwin.com) and use the link there to complete a survey about your building. Your hotel may be chosen for a free electrical audit.

## Applying for Green Suites is Simple

You may have considered applying for government grants and found the process too daunting. The Green Suites application process is straight forward and you will receive a timely response.

1. Complete the application form
2. Fill out the appropriate worksheets (custom or prescriptive)
3. Gather supporting documentation (spec sheets, photos, etc.)
4. Submit forms and supporting documentation to EnWin Utilities
5. Receive approval from EnWin in about 10 working days
6. Install equipment
7. Submit copies of your invoice and a written explanation of any changes from the original approved design within 30 days of installation
8. If everything is in order, receive your incentive cheque within about 10 working days.

## Green Suites Applications

*The Green Suites application is made up of three parts.*

- 1 **Application**
  - *Every customer completes this; it becomes your contract with EnWin.*
- 2 **Measure Worksheets**
  - *Prescriptive worksheets are self-calculating.*
  - *Custom worksheets require customers to model energy savings.*
- 3 **Additional Documents**
  - *Specification sheets*
  - *Custom application must be accompanied by utility data.*

### Deadlines

*Application deadline is May 30, 2010*

*Measures must be installed and working by April 30, 2011.*
